

## **Exciting Enhancements Coming to Inner Circle Camping in 2027**

Beginning in 2027, Las Vegas Motor Speedway is introducing an enhanced layout for Inner Circle Camping, designed to create a safer, more organized, and easier-to-navigate campground while maintaining the one-of-a-kind atmosphere our campers know and love.

The safety of our guests, campers, and staff is always our top priority. The updated Inner Circle layout will feature clearer roadways that follows in infield road course. These improvements will help reduce vehicle congestion, increase pedestrian awareness, and preserve the integrity of our infield road course race track.

We're also making it easier to navigate the Inner Circle from the moment you arrive. The campground will be organized into color-coded neighborhoods, helping you quickly identify your camping area. Each neighborhood will also have its own Las Vegas-related name that can be identified on the **new map (see page 2)**.

### **What This Means for Your Current Campsite**

As part of creating this safer and more organized layout, some existing campsites will be impacted. The majority of Inner Circle campsites will remain unaffected and will continue to be available for renewal in 2027.

However, the redesigned campground requires adjustments to certain areas in order to provide clearer roadways, designated routes, and improved spacing. As a result, a limited number of current campsites will no longer exist within the new layout and therefore will not be available for renewal for the 2027 NASCAR race weekend.

During the renewal process, we encourage you to speak with a Las Vegas Motor Speedway ticketing representative to confirm whether your current campsite is affected. If your site is changing, our ticketing team will be available to discuss your options and help you find an available campsite within the updated Inner Circle layout.

We understand that many campers have called the same spot home for years, and we appreciate your understanding as we make these changes with the safety and overall experience of all our guests in mind.

### **Improving Your Race Weekend Experience**

Whether you've been camping with us for years or 2027 will be your first time in the Inner Circle, our goal is simple: make your race weekend smoother and more enjoyable from check-in to check-out.

We look forward to welcoming you back to the Inner Circle and sharing more details about the new camping neighborhoods as we get closer to race weekend.

See you at the track!
